Sat. the 17th of April 2021

Mr. Poulson , Mom, Uncles...

Hello, love and good health to you and all... sorry if this is difficult to read I am still recovering from scabies creams and head still feels wrong...and in small area/many noisy people in incoming quarantine to Texarkana.

HERE are 3 'cases' that should make it possible for me and others to be shown some 'compassion' and be released as others are being...BUT I still have to wait for the outcome of the [Petition for Commutation] before we can file anything with the district court... and I think I have to refile in prison first???... and I don't expect any compassion from my district/circuit anyway after all they have done to me and knowing I am not guilty as it is... anyway :

1. April 8 2021, 9th Cir. #20-10245, lexis 10119, us v. Aruda, (1b1.13 does not control compassionate releases 'they can be for many things')

2. 2021, N. Dist. Georgia, us.v Rahim, lexis 71864, (freed via compassionate release, [guy was imprisoned in 2005, is now only 38 yrs old, had an exit date of 2037, sent. of 481 months, for bank robbery and car jacking etc...]).

3. 2021, E. Dist. Pennsylvania, us v. Briggs, lexis 71790, (freed via compassionate release, [guy was imprisoned in 2008, is now only 40 yrs old, had a 32 yr sent., for 2 armed bank robberies, etc...]).

Both cases they talked about the classes they took, expressing remorse (they were guilty), history, BUT neither of them even had medical problems... I wasn't even allowed to take classes the first 10 years I was imprisoned as I was IN the Penitentiaries Lompoc and Victorville (and none of the 'classes' are/were even real back then) But have since taken many including electrical, welding, Universal National air conditioning certification and Graphics design Tech. classes among many others...

Anyway

Piers

END
